INTERNATIONAL FIREWORKS POLEGGI

Poleggi fireworks was established in 1850 by Annunziato Poleggi. Since then our ancestors were skillful in pyrotechnics. The company won both a medal and a gold paper at the meeting in Milan in 1915 for the best special effects and pyrotechnic scenery.

All of this has been handing down from father to son up to nowadays, with pyrotechnic shows and competitions of success in Italy and abroad, always lighting up the sky with the best home production bombs.

We are clever at coordinated time pyromelodic fireworks, ground, water air fireworks, pinewheels plays in the sky. Our family business is second to none. It fears neither price nor quality and it's very attentive to the demands of the party organizers .

Poleggi Fireworks was founded in Canepina (VT) Lazio-Italy
Our company lays on a superficie of 10.000 square meters and it is divided into 10 structures, where they prepare mixtures and stars for the packaging of fireworks.

ShowSim is a state-of-the-art scripting fireworks application that allows you to view the pyrotechnic show through real-time animation programs on your computer screen. The realistic visualizations rendered by ShowSim allow to fine-tune the right timing at the desk, in addition to the insurance against oversights and errors for greater security at gunpoint.

Preparation of the pyromusical show
