Collection **2021** GLOBAL EVENTS

Our company LUMEN Ltd., established in 2018, was created by our Artistic Director who has been operating in the event lighting sector since 1976.

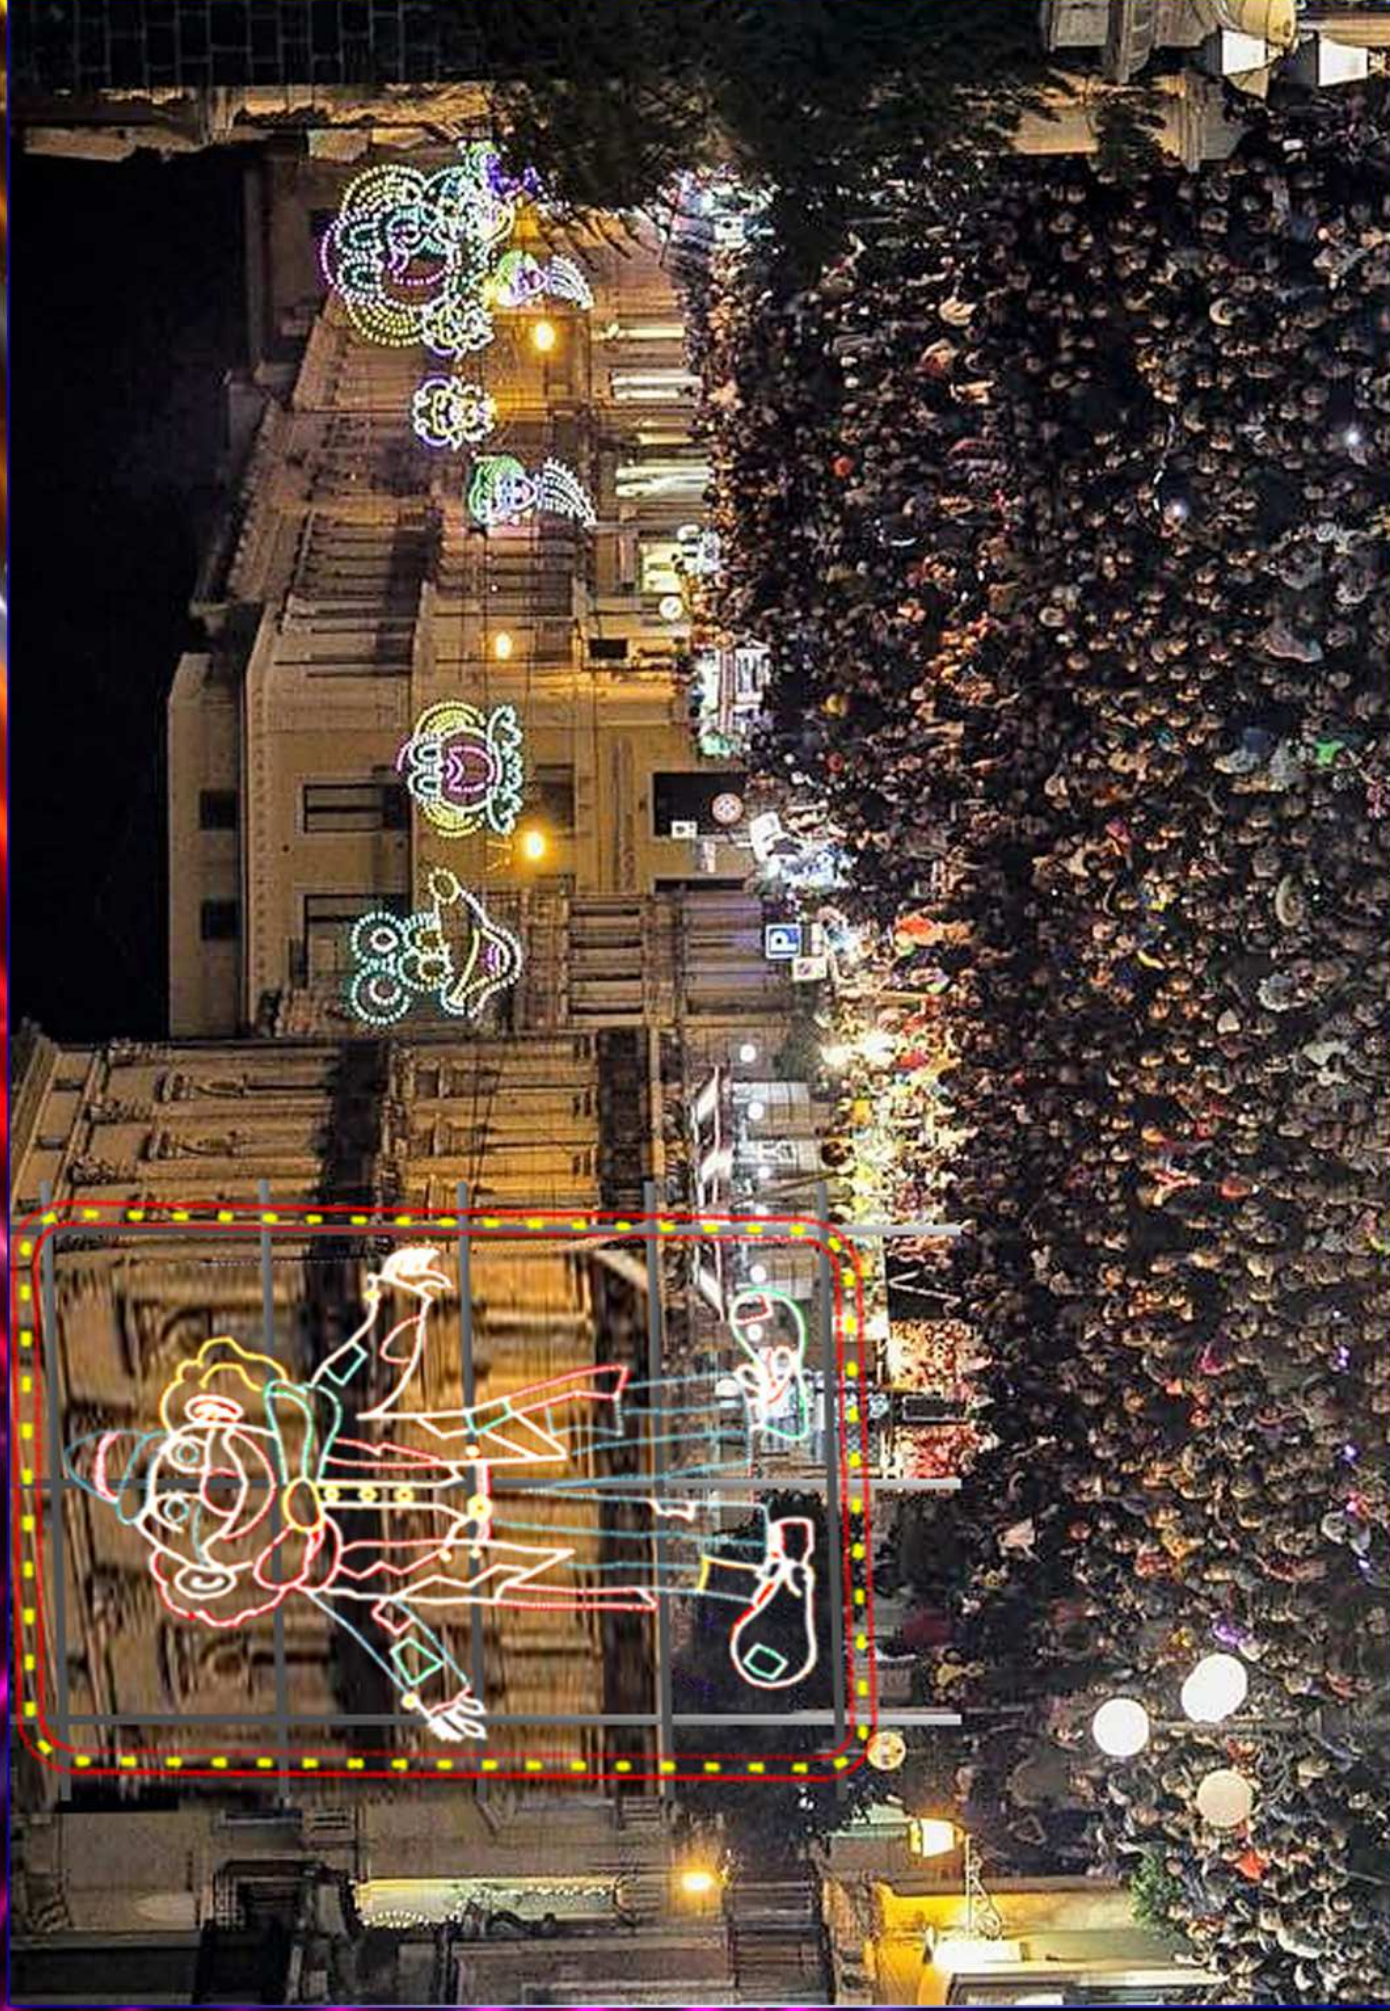

Over the years, it has created, directed and set up countless events, such as fairs, Carnivals, Fashion, Singing and Film Shows, Religious and others in general, with locations in Italy and in some of the major foreign capitals.

In the video and graphic attachments, we represent some of the many structures we use to set up the events above-mentioned.

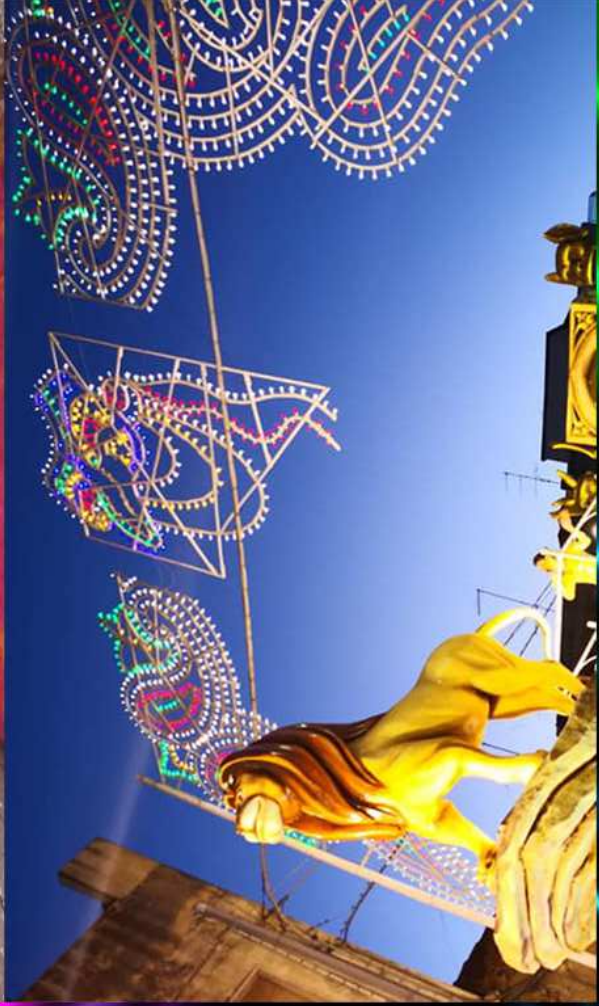

Our company has considerable organizational and structural skills to set up any type of event, even creating customized structures such as institutional logos, special event logos, commercial logos and any technical, artistic or other drawings.

Our company has specialized teams for designing of all of the above outlined.
